FRAMER

COMFORT FIT

Comfortable Durability 

Provide your hands with a comfortable barrier against a moderate manual working lifestyle. The fitted design moves with your hands as you work, minimising the risk of snagging and making it a comfortably light glove to wear. Although light, the Comfort fit doesn't hold back on durability. The breathable materials look after your hands on the inside, whilst the double-layered synthetic leather and double stitching do the hard work on the outside.

- Light & flexible for all-day comfort
- Snug fit to minimise snagging
- Double layered synthetic leather on palm and key wear areas
- Double stitching
- Terry cloth sweat wipe
- Neoprene knuckle padding
- Write on ID tag
- Low profile palm padding
- Machine washable at 30°C

INTENDED USES: General Rigging, Loading, Running Cables, Film/Set/Scenic, Camera Operation, Console Operation (Framer Style)

SLIM FIT

A Glove That Fits Small Hands

Introducing the newest glove to our collection, the slim fit is designed specifically for smaller hands and glides on with ease. With a layer of super soft yet durable leather on the palm this glove is exceedingly comfortable whilst protecting those key wear areas and giving you outstanding grip. The airprene knuckle padding and wrist cuff allows your hands to breath, keeping them refreshed! This glove also boasts a touchscreen compatible finger tip so theres no need to remove them whilst answering a call.

- Light & flexible for all-day comfort
- Touch screen compatible finger tip
- Double layered palm consisting of synthetic and real leather
- Discreet design for backstage use
- An eyelet hole to securely clip your gloves to your belt
- Airprene breathable knuckle padding and wrist cuff
- Write on ID tag
- Easy pull on/pull off tab

INTENDED USES: General Rigging, Loading, Running Cables, Film/Set/Scenic, Camera Operation, Console Operation (Framer Style), rope use

UNCOMPROMISED GRIP

8

PRO-GRIP

Incredible Grippped Hands

Built for applications where grip is essential! The Pro-Grip glove provides the perfect combination of dexterity and grip in both wet and dry conditions. The low bulk, seam free palm fits the hand to give a snug yet outstandingly comfortable fit. Aireprene knuckle panelling and a short style wrist cuff contribute towards the breathability of the glove, further enhancing comfort.

- Hexa-grip silicone embossed palm for superb grip
- Excellent grip in wet and dry conditions
- Super high dexterity and flexibility
- Aireprene ventilated knuckle panel and wrist cuff
- Low-profile, short style wrist cuff
- Rounded seam-free finger tips

INTENDED USES: Handling trussing and scaffolding, Loading equipment, Working at height, Gripping materials in wet and dry conditions, Tactical use

GLOVES

ARMORDILLO

Ultimate Protection

Abrasion, cut, tear and puncture resistant. The Armordillo™ comes fully lined with world renowned DuPont™ Kevlar®, encasing your hands in one of the best slash-resistant materials available. In addition, your palms are protected with puncture resistant, double-layered goats skin and abrasion resistant Armortex® plates on key risk areas. There's no tougher glove in the Dirty Rigger® range.

- DuPont™ Kevlar® lining throughout
- Amortex® shield on key areas
- Double-layered, puncture resistant leather palm
- Articulated material for optimum flexibility
- Write-on ID Tag
- Double stitching
- Low profile palm padding
- Tested in accordance to EN388

INTENDED USES: Manual handling of materials with sharp edges, General stores and warehouse use, Machine operation, Engineering, Rappelling and climbing, Heavy and general rigging

EN 388

COMFORT 0.5

Superb Dexterity

The perfect multi-purpose light duty glove. A value glove with high dexterity and protection which you can expect from dirty rigger®. Non reflective matt black materials make these gloves perfect for back stage use and black out situations.

- Lightweight super dexterous design
- Durable Synthetic leather palm
- Low profile 'black out' design
- Touch screen compatible
- Neoprene knuckle padding
- Machine washable at 30°C

INTENDED USES: General Rigging, Loading, Running Cables, Film/Set/Scenic, Camera Operation, Console Operation

THE ULTIMATE PROTECTION

GLOVES

THE PROTECTOR

An Arsenal Of Protection For Your Hands

Abrasion-resistant Amortex® shields barricade the palm-side of your hands from coarse surfaces. High-density-foam knuckle bars and motion-flexible finger guards help cushion impacts on the back. Flexible and breathable materials work to lighten the glove while life-boosting, fray-resistant DuPont™ Kevlar® double stitching encourages an exceptional life span. It's your all-in workman's glove.

- Amortex® abrasion resistant shields
- Fray resistant DuPont™ Kevlar® double stitching
- High-density-foam impact cushions (Knuckles)
- Motion-flexible impact bars (Finger-backs)
- Articulated material for optimum flexibility
- Write-on ID Tag
- Low profile palm padding
- Tested in accordance to EN388

INTENDED USES: Heavy duty rigging, Rope work, Construction, Cable handling, Materials handling, Industrial maintenance and operation

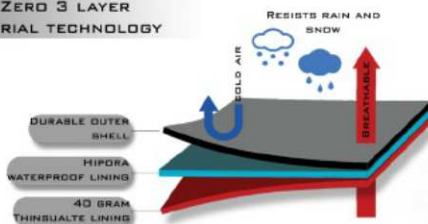

FROM THE SUBZERO COLD

SUB-ZERO 3 LAYER
MATERIAL TECHNOLOGY

SUBZERO

Breathable Insulation For Winter-Climate Riggers

A 40gsm 3M Thinsulate® lining and Hipora® water resistant membrane help warm your hands right to the fingertips in subzero, high-wind conditions. Lock out the elements with a 6cm (2") adjustable cuff. Heavy duty synthetic leather on the palm provides a durable outer structure with added Ultra-Grip plates to help anchor onto cold, wet materials. High-density-foam knuckle pads and motion-flexible impact bars on the fingers help cushion knocks and bumps to the back of your hand.

- 40gsm 3M Thinsulate® lining
- Hipora® breathable water resistant membrane
- Ultra-Grip plates on palm & fingers
- Extended 6cm (2") adjustable cuff to lock out the elements.
- High-density-foam knuckle pads
- Motion-flexible impact bars on the fingers

INTENDED USES: Cold weather equipment operation, Outdoor rigging, Farming, Winter sports, Emergency services

PHOENIX

Hands-on Heat Protection

World class DuPont™ Nomex® lining encases your hands in a heat and flame resistant barricade throughout the glove. Rated to 250°C for up to 30 seconds, the Phoenix™ provides a skin-protecting barrier when working with high temperature items. Specially selected double-layered leather additionally defends the palm and key wear areas against abrasions. A one-piece leather layer on the palm is enhanced with an articulated second layer to allow exceptional freedom of movement as you work. All combined with DuPont™ Kevlar® double stitched seems to brace an incredibly durable glove.

- EN407 : 2004 Clause 2 Contact Heat – Performance Level 2
- Rated to 250°C for up to 30 seconds
- Abrasion resistant, double layered leather palm
- Articulated second layer for exceptional freedom of movement
- DuPont™ Kevlar® double stitched seems
- Snug fit to minimise snagging
- Write-on ID Tag

INTENDED USES: Focusing lamps, Changing hot bulbs, Pyrotechnics, General rigging, High temp automotive work

TO THE RED HOT PHOENIX

140 LUMEN OUTPUT

THE GLOWMAN

Powerfull Yet Discreet

Featuring a super bright, thumb mounted LED, the Glowman light glove is the ideal low-light workman's glove. Shock and water resistant I-lume LED technology by Fibertronic® provides an exceptional level of light, reducing the need for handheld torches and allowing you to work with both hands safely and effectively. Touchscreen compatible index finger and thumb tips, designed to operate all major touchscreen devices without the inconvenience of removing your gloves.

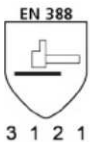

- RoHS compliant
- 140 lumen output for a powerfull light source
- Constant/pulse LED modes
- Power saving feature to help the battery last
- Touchscreen compatible for all touchscreen devices
- All weather use (wet and dry)
- Write-on ID Tag

INTENDED USES: - Use for touchscreen applications, Use in low-lit areas, Theatrical and backstage, Light rigging, Tactical, Machine operation

THE SRT

Lock Tight Hand Protection

Silicone embossed palm and fingers give you lock-on grip to most cables, metals and plastics even in wet weather. Your hands are protected with ultra-durable synthetic leather, double-layered and double-stitched in key wear areas for exceptional glove life. Micro-perforations allow air to move in and out of the glove to help keep your hands cool. High-density-foam knuckle pads and motion-flexible finger impact bars help cushion knocks and bumps to the back of your hand.

- Exceptional wet & dry grip, silicone embossed palm and fingers
- High-density-foam impact cushions (knuckles)
- Motion-flexible impact bars (finger-backs)
- Micro-perforated ventilation
- Double-stitching
- Durable synthetic leather palm base
- Low profile palm padding

INTENDED USES: Handling, trussing and scaffolding, General rigging, Loading equipment in wet and dry conditions, Handling cables, Offshore

FIGHTING THE WAR AGAINST HEATSTROKE

GLOVES

LEATHER GRIP

Your 3rd Skin

A raw grit workman's glove. Specially selected, double-layered goat skin hide creates an exceptional defence for the palm of your hands. A one-piece palm base combines with an articulated second layer to allow optimum freedom of movement as you work. Dirty Rigger's select leather delivers a natural ability to withstand high-friction, providing a barrier for your hands when working with rope, cables and staging. A lighter back on the glove minimises heat build-up and helps maintain a comfortable flow of air as you work.

- Genuine leather palm
- Ultra-durable, double-layered leather palm
- Articulated second layer for freedom of movement (palm side)
- Double stitched seams
- Breathable glove back to relieve heat
- Snug fit to minimise snagging
- Integrated terry cloth sweat wipe
- Write-on ID tag

INTENDED USES: Rappelling and climbing, Theatrical use/ stage use, General rigging, Stunt production, Loading equipment

VENTA COOL

Ventilated Summer Rigger Glove

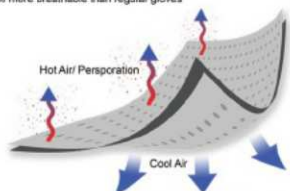

Hand cooling airflow is maximised through low-contact areas on the back of the glove. High ventilation materials encourage air to refresh your hands as you move, drawing heat away from the core. Optimum durability is retained on the palm-side where a synthetic leather base expels sweat through micro perforations and a second articulated layer with double-stitched seams support resistance to abrasions.

- 80% more airflow than regular Dirty Rigger® gloves*
- High ventilation glove back
- Optimum durability on palm and key wear areas
- Double-stitched seams
- Write-on ID tag

INTENDED USES: For use in hot and humid climates, General rigging, Loading equipment, Running cables, Film set/scenic, Camera operation

Advanced material ventilation system
80% more breathable than regular gloves

AUTO REEL FALL ARRESTER

The Dirty Rigger® auto reel fall arrester is a compact and safe alternative to using a shock absorbing lanyard. It is supplied complete with equal 'D' karabiners enabling a quick and easy attachment.

- 136 KG/299 lbs
- Maximum Working Load
- Extended Karabiner
- Karabiner Length of 2.5m/78in
- High Visibility Yellow Webbing
- Sewn in External Shock Absorber
- Quick Acting Locking Mechanism
- CE Certification
- Conforms to EN360

OCTO-POUCH

The Dirty Rigger® Octo-Pouch offers an incredibly durable 600 x 600 denier polyester nylon construction. A built-in buckle system allows secure attachment of a variety of tools directly to the pouch, ready for quick release when required.

- Drawstring closure
- Dirty Rigger® buckle attachment system
- Secure Velcro® closure on both side pockets
- Metal D-rings for additional carabiner attachments
- All black low-profile design – perfect for backstage use
- Extremely durable 600 x 600 denier polyester nylon construction
- Multiple internal pockets
- Pouch dimensions approx : W15 x D10 x H19 (cm)

Contents not included

KIT INCLUDES
 1 X OCTO-POUCH
 1 X SINGLE CARABINE
 4 X DETACHABLE LOOPS

THREE DETACHABLE LOOPS

- Loops to be used with our single carabine lanyards only
- Removable loops can be pre-attached to tools for easy on/off access
- Clip your tools to the lanyard as and when you use them

NOTE: Always use with proper personal protective equipment.
 Not for climbing or fall arrest.

SINGLE CARABINE LANYARD

- Length (un-stretched) 100cm
- Material: Double, heavy-duty elastic cord with heavy-duty nylon covering
- Reflective fibre also stitched into nylon outer sleeve
- Lightweight alloy metal carabiner clip and adjustable detachable elastic loop
- Removable loops can be pre-attached to tools for easy on/off access
- Includes 1 loop. Additional loops can be purchased separately
- Maximum working capacity 5lb/2.3kg

NOTE: Always use with proper personal protective equipment.
 Not for climbing or fall arrest.

DOUBLE CARABINE LANYARD

- 10lbs/4.5kg maximum working capacity
- Light weight construction (86grams)
- Heavy duty elastic cord
- Heavy duty nylon covering
- Integrated reflective fibre
- 1.1m (un-stretched length) to 1.6m (stretched length)
- Lightweight carabine clip on both ends

NOTE: Always use with proper personal protective equipment.
 Not for climbing or fall arrest.

LED CHEST RIG

Store your essentials on this light weight, compact Chest Rig with integrated 140 lumen LED. Water and shock resistant, the multi-function light source is easily removed for hand-held use and comes complete with a replaceable battery pack. The full-width zip-lock pouch gives quick access to your tools and an adjustable button-lock pocket holds most two-way radios.

- Integrated 140 lumen shock/water resistant LED
- LED pulse/constant mode with 5 minute auto shut-off
- Replaceable battery pack
- Ultra-durable 600x600 denier material
- Zip-lock central pocket – 22cm(H) x 20cm(W) x 3cm(D)
- Button-lock two-way radio pocket – 10cm(H) x 6cm(W) x 3cm(D)
- Front pocket with closure flap – 14cm(H) x 10cm(W) x 2cm(D)
- Fully adjustable shoulder and torso straps

PADDED UTILITY BELT

Spread the load with an extra wide 12.7cm (5") padded belt-back, lined with a breathable mesh and specially selected foam for optimum all-day comfort. Move freely as the belt narrows at the front and sides, minimising bulk and restriction of movement, often found in wider belts. Four quick access, repositionable D-rings provide you with even more versatility for accessory attachment. Compatible with all Dirty Rigger® tool pouches and accessories.

- Extra wide 5 inch padded back
- Narrower sides and front for freedom of movement
- Breathable mesh for ventilation
- Four repositionable D-rings for extra attachments
- Heavy duty, quick release belt buckle
- Outer belt strap – 5cm wide
- Inner belt – 9cm (front width) 12.7cm (back width)

Fits sizes 30" - 42"

TOOL BELT

Allow your waist to breathe with Dirty Rigger® multi-layered material construction. The padded 3D internally-breathable mesh provides excellent ventilation throughout the belt, minimising uncomfortable under-belt sweat. Tried and tested heavy duty 50mm belt buckle helps to keep the Tool Belt comfortably secured around your waist and can be removed single handedly when required. Fully compatible with the Dirty Rigger® pouch and accessories range.

- Internally-breathable mesh for ventilation
- Quick release buckle
- 5cm (2") belt
- Compatible with Dirty Rigger® accessories
- Adjust to fits sizes 30"-42"

Fits sizes 30" - 42"

CARABINES

Keep your gloves and accessories right by your side with Dirty Rigger® lightweight carabiners. At only 17g grams each, they don't weigh you down. The snap lock design can be used single-handed to clip onto your tool belt or any of the Dirty Rigger® tool bag D-ring attachments.

- Lightweight aluminium
- Only 17grams each
- Snap lock design
- Compatible with all Dirty Rigger® tool bag D-rings
- 5 Carabiners per pack

CAUTION: Not designed or rated for climbing or fall arrest.

MAGTAPE HOLDER

Everyone needs an extra hand sometimes and the Dirty Rigger® gaffer and accessory holder is designed for just that. Quickly and securely it offers an easily accessible strap for holding tools, clamps, bags and it's original design intention gaffer tape.

- Secure carabine clip for instant attachment and release
- Fully adjustable buckle for varying the drop length and tightness
- Easy accessible strap

GLOVE CLIP

Don't leave gloves behind, clip them on right by your side with the Dirty Rigger® Glove Clip.

- Single-handed unclip
- Engineer grade, ultra tough material
- Non-conductive
- 5kg/7lbs break-away
- Size: 12.5cm (L) x 3.3cm (W)

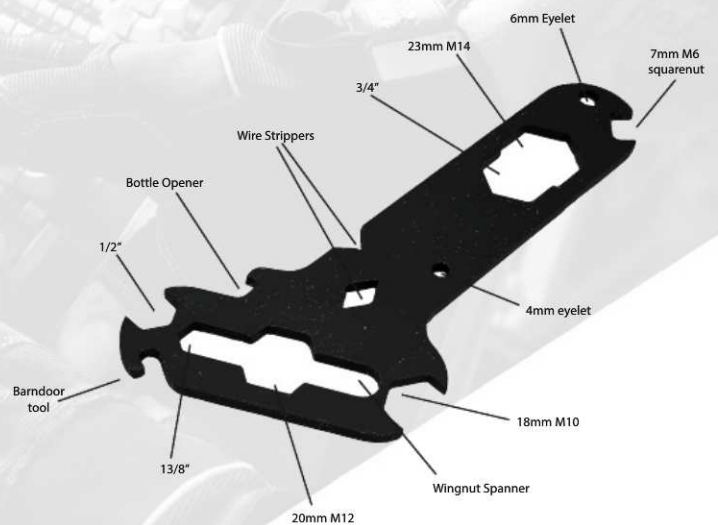

Glove not included. Measurements are approximate

RIGGER MULTITOOL

So simple yet it's indispensable. Cut from 4mm hardened steel it's one of the toughest multi-tools of its kind on the market. 14 separate tools remain instantly available, with every one designed around some of the most common needs in the professional rigging industry. Finished in a durable matt black powder coat and if you were ever in doubt, it has got a bottle opener too.

- 3/8", 1/2", 3/4" nut tools
- 7mm (M6) square nut tool
- 18mm (M10), 20mm (M12), 24mm (M14) nut tools
- 4mm and 6mm eyelets
- Wire Stripper (x2)
- Wingnut tool
- Barndoor tool
- Bottle opener

FOUR WAY PODGER WRENCH

Four wrench sizes in one tool! The Wrench comes in a chrome plated finish, with a slot and D-ring adapter for attachment to standard Dirty Rigger tool lanyards for safer working at height.

- 4 different socket sizes
- 24cm short handle design
- Nickel Chrome plated finish
- Pointed end handle, ideal for knocking out truss pins
- Includes D-Ring for lanyard attachment

 Socket sizes: 17mm, 19mm, 21mm, 24mm

 Socket sizes: 15/16", 3/4", 1/2", 7/8"
19mm, 22mm, 24mm, 27mm

TECH POUCH VII

The tech pouch offers safety, versatility and product longevity with easy access pockets.

- 2.5ltr main storage pocket – 17cm(W) x 8cm(D) x 19cm(H)
- 5 slip-in inner pockets – various sizes
- 2 instant access outer pockets (sides) – 7cm(W) x 2.5cm(D) x 13.5cm(H)
- 2 instant access outer pockets (front) – 7cm(W) x 2.5cm(D) x 10cm(H)
- Screwdriver pass-through
- 4 steel d-rings for additional attachments
- Side mounted grab handle
- 50mm belt loop
- Rugged 600x600 denier nylon construction
- Overall dimensions 23cm(W) x 12cm(D) x 20cm(H)

COMPACT UTILITY POUCH

Our unique design makes both storage and small size possible. Simply attach it to your belt and you'll almost instantly forget it's there. This clenched-fist sized pouch utilises every millimeter of space with heavy duty elastic technology which constantly contracts to make the bag no bigger than it ever needs to be.

- Magnetic closure flap
- 4 external open-bottomed screwdriver pockets
- 2 internal screwdriver pockets
- 1 internal back pocket – 8cm(H) x 6cm(W)
- 1 internal central storage pocket – 8cm(H) x 6cm(W) x 5cm(D)
- 2 front mounted pockets – 7cm(H) x 7cm(W)
- Belt loop attachment
- Ultra-durable 600x600 denier material
- Unloaded size 14cm(H) x 9.5cm (W) x 5cm (D)

TECH POUCH

Extremely durable 600 x 600 denier polyester provides outstanding flexibility and durability with an impressive 11 inner and outer pockets.

- 2.5ltr main storage pocket – 17cm(W) x 8cm(D) x 19cm(H)
- 5 slip-in inner pockets – various sizes
- 2 instant access outer pockets – 7cm(W) x 2.5cm(D) x 13.5cm(H)
- Button-lock tape measure holder – 7cm(W) x 7cm(D) x 7cm(H)
- 2 mini pockets
- Screwdriver pass-through
- 4 steel d-rings for additional attachments
- Side mounted grab handle
- 50mm belt loop
- Rugged 600x600 denier nylon construction
- Overall dimensions 23cm(W) x 19cm(D) x 20cm(H)

PRO-POCKET

Low-profile, light-weight and extremely durable. The Pro-Pocket's unique layout design enables it to hold every professionals must-have tools and necessities with minimal bulk.

- Quick find vertical tool storage system
- Single-handed tool access
- Low profile, unobtrusive design
- Easy on/off belt flap (allowing independent removal from belt)
- Integrated carabiner loop with clip included
- Internal smartphone pocket – 60mm (W) x 30mm (D) x 110mm (H)
- Hook & loop closure flap
- Ultra-durable 600x600 denier material
- Unloaded size 14cm(H) x 11cm (W) x 4.5cm (D)
- 4 x open-bottomed tool pockets

Contents not included

GEAR BAG

Keep everything you need right by your side in the Dirty Rigger® Gear Bag. 12 ltrs of organised space, constructed using heavy duty, water resistant Cordura™ material. Padded walls help cushion everything from tools and equipment to tablet devices and drink flasks. 11 inner tool slots give one-handed access to your on-the-moment essentials while a huge central storage compartment caters for almost anything you need. Carry it all using the adjustable seatbelt-style strap and shoulder pad.

- Heavy duty and water resistant
- Designed and hand made in the UK
- 12 ltrs of internal storage
- Large central storage compartment – 33cm(W) x 12cm(D) x 25cm(H)
- 11 inner tool slots
- Padded external walls
- Separate smart phone pocket – 9cm(W) x 5cm(D) x 20cm(H)*

- 2 external D-rings for extra attachments
- Hook and loop closure flap with added buckle
- Padded, adjustable seatbelt-style shoulder strap
- Rear zip-close pocket – 33cm(W) x 1cm(D) x 22cm(H)*
- Grab handle
- Overall dimensions – 39cm(W) x 17cm(D) x 28cm(H)

CARPET CRAWLER

British made from 700 denier polyester, the Carpet Crawler is a durable and versatile solution for reducing trip hazards resulting from loose cables. In premium hotels, airports or carpet only areas even premium Gaffer Tape cannot be used therefore the Carpet Crawler is a highly practical alternative.

- Easily removable/ repositionable
- Reusable many times unlike gaffer tape
- Perfect for application to most types of carpet
- 1 meter/ 3.3ft sections which can connect together to give your ideal length (custom lengths available)
- 2 Standard options...high visibility black/yellow chevron design or plain black. A fire retardants version is available on request.
- Extremely durable 700 denier polyester construction

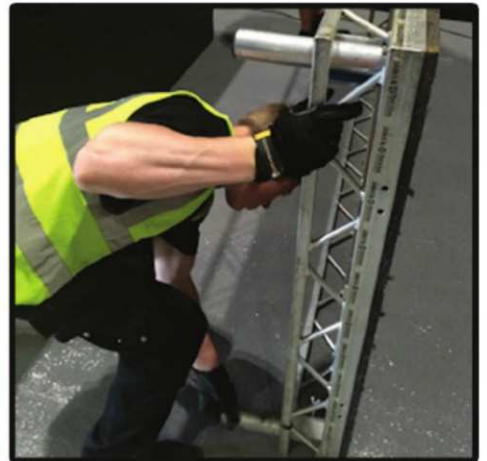

You can customise any of our accessories with your corporate logo and colours. Please email design@dirtyrigger.com for more info.

OUR OFFICIAL TESTING PARTNER...

CREWSADERS

It's never been a secret that Dirty Rigger® gloves often go above and beyond their call of duty. Their ability to continually develop, test and construct gloves and rigger-wear of such world-dominating endurance is widely known and recently they've given a little sneak peak as to how they've done it.

Over the last 3 years, Dirty Rigger® has worked closely with one of the UK's largest crew service suppliers, Crewsaders. By sending in a selection of new, existing and under-development rigger wear to be worn by the Crewsaders team, Dirty Rigger® have been able to closely monitor the performance of their gloves throughout the varied industries in which Crewsaders work. From event security to rigging crew, the trained Crewsaders staff have provided report sheets which help to pinpoint any weaknesses in the gloves and identify areas of possible improvement. The field testing of our gloves with Crewsaders is not only carried out during the development stage but it continues throughout the life of each and every model as part of our quality control.

PERFORMANCE GLOVES OIL, GAS AND WIND

HIGH PERFORMANCE HAND PROTECTION FOR OIL, GAS AND RENEWABLE ENERGY

British designed, specialist gloves specifically designed for the oil and gas industry and developed as a result of years of extensive research, testing and client feedback. From offshore oilrigs, drill ships and wind farms off the coast of Russia, the USA, Australia and all points in between, these gloves have been put through their paces. This is by far the most demanding and harshest environment Dirty Rigger® has ever been challenged to produce gloves for. And now, over a year later, the outcome:- THE OFFSHORE GLOVE RANGE. Built with multiple components and branded materials from the likes of Dupont™ and 3M™, combined with our own Hexa-Grip™ and XO-Skeleton™ technology. You can be sure of gloves that will deliver!

CUT LEVEL 3 SLEEVE

- EN388 rated – level 3 cut and puncture resistance
- Provides complete forearm protection
- Can be worn in conjunction with any of our offshore gloves
- Suitable for use under clothing
- Made from genuine DuPont™ Kevlar® material
- Comfortable for prolonged usage
- Machine washable
- One size fits all

Designed to give maximum protection in high-risk areas that gloves don't cover. Made from 100% Genuine DuPont™ Kevlar®, the sleeve is designed to give you comfortable and discrete protection from your knuckles all the way to your bicep. The sleeves can be worn in conjunction with any of the Offshore™ gloves in our range and underneath clothing. The sleeves score EN388 level 3 for cut, puncture and tear-resistance, whilst providing a protective barrier against oil and other liquids. No need to worry about sizing as one size fits all, thanks to the special stretch fabric.

WITH SPECIAL THANKS TO...

**Monkey Wrench
Productions**

We would like to thank you for believing in Dirty Rigger® from the start and recognizing the potential of the brand in the US market. As Dirty Rigger's® first ever distributor in the US, you have supported us throughout.

Phone: 001 612 208 0497

Email: info@monkeywrenchpro.com

Our partnership with Matradis Energy has been fundamental in allowing the Dirty Rigger® range to diversify and expand into the oil and gas market. As our exclusive distributor in Malaysia and Singapore to the offshore industry, Matradis have opened a lot of doors for Dirty Rigger®. We truly appreciate the support of Matradis in recognizing Dirty Rigger® as a quality brand of innovative products.

Many thanks to West Anglia Training Association for providing local support in assisting with the development of the Dirty Rigger line. WATA have provided us with an excellent facility which has allowed us to test new gloves in real life scenarios. More specifically they have been a valuable asset in the development of the 'Pro Grip' glove which has been tailored to be more specific to the scaffolding market.

West Anglia Training Association Ltd (WATA) has established itself as one of the leading training providers in the UK with a reputation for the delivery of first class training courses, where customer care and an efficient, effective quality service is a priority.
